

To run the Project follow the below mentioned steps:

(Best if used databricks)

1. go to Databricks website and start cluster

2. Import the following ipynb to databricks.

<https://databricks-prod-cloudfront.cloud.databricks.com/public/4027ec902e239c93eaaa8714f173bcfc/>

[7747238660140184/858231070792343/6543208337788454/latest.html](https://databricks-prod-cloudfront.cloud.databricks.com/public/4027ec902e239c93eaaa8714f173bcfc/7747238660140184/858231070792343/6543208337788454/latest.html)

3. Run all the cells.

(Note: Interrupt cell "6. Test using streaming data" after some time and proceed further)
